## Capabilities/Core Competencies

Velocity Micro specializes in:

- Custom Desktops powered by Intel Core and Xeon processors
- Workstations featuring AMD Ryzen, Threadripper, and Epyc processors
- GPU computing servers and workstations with NVIDIA Geforce, Quadro, or Tesla

- Rack mount 1U, 2U, and 4U solutions
- High performance laptops and desktop replacements
- Custom storage and web servers
- Specialized desktop and server project

## Key Differentiators

**US-based Support** – All products include in house lifetime technical support and onsite warranty repair options
**Performance tuning** – Each system we ship is tuned to maximum performance with custom BIOS settings, drivers, and Windows optimizations

**Build Quality** – From our meticulous wiring process to 200-point checklist, each PC is built to the highest standards
**Customization** – No other PC builder offers the level of flexibility and customization as does Velocity Micro. We design our products to fit your needs.
