

## Velocity Micro Upgrade Program Price List - October 2018

This is our standard upgrade program pricing for various options, upgrades, and replacement components for your existing computer. All upgrades include our famous craftsmanship and meticulous cable wiring. Since 1998, Velocity Micro has built nearly 100,000 custom computers, and therefore very few are alike. Please use this price list as a general guide to plan your upgrades, but we can substitute most any available components, create unique custom solutions, or work together with you to find the perfect fit to suit your computing needs. Please contact us to discuss your needs, verify your selection options, and schedule your service appointment in our lab.
